Deferred tax assets or liability is the year income tax recoverable or payable in future periods recognized in the current period as per "IAS 12: Income Tax. Calculation of deferred tax has shown in note no.29.02.

### **3.09 Provisions**

The preparation of financial statements in conformity with International Accounting Standard IAS - 37 Provisions, Contingent Liabilities and Contingent Assets requires management to make estimates and assumption that affect the reported amounts of revenues and expenses, assets and liabilities, and the disclosure requirements for contingent assets and liabilities during and at the date of the financial statements.

In accordance with the guidelines as prescribed by IAS - 37 provisions were recognized in the following situations:

- When the Company has a present obligation as a result of past event;
- When it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and
- Reliable estimates can be made of the amount of the obligation.

An appropriate level with regard to an adequate provision for risks and uncertainties has been shown in the Statement of Financial Position. An amount recorded as a provision represents the

best estimate of the probable expenditure required to fulfill the current obligation on the date of Statement of Financial Position.

### **3.10 Contingencies**

Contingent liabilities and assets are current or possible obligations or assets, arising from past events and whose existence is due to the occurrence or non-occurrence of one or more uncertain future events which are not within the control of the company. In accordance with IAS 37 Provisions, Contingent Liabilities and Contingent Assets are disclosed in the notes to the financial statements.

### **3.11 Earnings per Share (EPS)**

This has been calculated in compliance with the requirements of "IAS 33: Earnings per Share" by dividing the basic earnings by the weighted average number of ordinary Shares outstanding during the year.

#### **Basic Earnings**

This represents earnings for the period attributable to the ordinary shareholders. As there are no preference dividend, minority interest or extra ordinary items, the net profit for the year has been considered as fully attributable to ordinary shareholders. Basic earnings per share has been calculated by dividing the net profit or loss by the number of weighted average ordinary share outstanding during the year.

#### **Diluted Earnings per Share (DEPS)**

Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and number of ordinary shares outstanding, for the effect of all dilutive potential ordinary shares. However, dilution of EPS is not applicable for these financial statements as there were no potential ordinary shares during the relevant period.

### **3.12 Segment Reporting**

No segmental reporting is applicable for the company as required by "IFRS 08: Operating Segments" as the company operates in a single industry segment during the reporting period. Company has started commercial production of Spinning Unit at Rupganj, Narayanganj at same location and adjacent to its Chemical Unit which is under construction in the reporting year of which information has been disclosed in the accounts.

### **3.13 Event after Statement of Financial Position Date**

In compliance with the requirements of "IAS-10: Event after the reporting period" that provide additional information about the company's position at the date of the financial position are reflected in the financial statements and events after the reporting period that are not adjusting events are disclosed in the notes when materials.

There was no significant event that has been occurred between the statement of financial position date and date on which the financial statements are authorized for issue.

### **3.14 Employee Benefits**

#### **3.14.1 Worker's Profit Participation**

In accordance with the requirement of section 234 of Labor Act, 2006, the company shall establish a separate Worker's Profit Participation Fund in future.

### **3.15 Financial Risk Management Policies**

The company is exposed to normal business risks from changes in market interest rates and currency exchange rates and from non-performance of contractual obligations by counterparties.

The company does not hold or issue derivative financial instruments for speculative or trading purposes.

#### **Interest Rate Risk**

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The majority of the interest rate exposure arises from short and long term borrowings from banks. The company has no significant risk of fluctuations in interest rates.

#### **Foreign Currency Risk**

The company is exposed to foreign currency risk relating to purchases and sales which are denominated in foreign currencies. The company primarily utilizes forward exchange contracts with maturities of less than one year to hedge such financial liabilities denominated in foreign currencies. The forward exchange contracts entered into at the reporting date also relate to anticipated purchases, denominated in foreign currencies, for the subsequent period.

#### **Credit Risk**

Credit risk is the potential financial loss resulting from the failure of a customer or counterparty to settle its financial and contractual obligations to the company as and when they fall due.

Management has a credit policy in place and the exposure to credit risk is monitored on an ongoing basis. Credit evaluations are performed on all customers requiring credit over a certain amount. At the reporting date there were no significant concentrations of credit risk. The maximum exposure to credit risk is represented by the carrying amount of each financial asset in the statement of financial position. However, due to the large number of parties comprising the group's customer base, Management does not anticipate material losses from its debt collection.

Credit risk is the risk which arises with the possibility that one party to a financial instrument will fail to discharge its obligation and cause the party to incur a financial loss. The company attempts to control credit risk by monitoring credit exposures, limiting transactions with specific counterparties and continually assessing the creditworthiness of counterparties.

Concentrations of credit risk arise when a number of counter parties are engaged in similar business activities or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentration of credit risk indicates the relative sensitivity of the company's performance to developments affecting a particular industry. The breakup amount due from customers other than related parties as disclosed in note 7.00 to these financial statements is presented below:

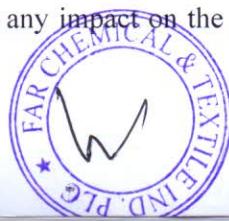

#### **Fair Values**

The fair value is an amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction. Consequently, difference may arise between the carrying value and the fair value estimates. As at December 31, 2025 the net fair value of all financial assets and financial liabilities are estimated to approximate their carrying values.

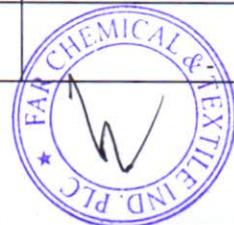

Underlying the definition of fair value is the presumption that the company is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.
